## REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Herbert A. Wood Elementary School continued to provide exceptional programs and opportunities to enable all students to experience success throughout the 2009-2010 school year. Because of the success of our small group instruction in our T.E.A.M. Time Room, we have expanded this initiative to include fourth and fifth graders in our T.E.A.M. Time 2 Room. We have continued our educational partnerships with U.S.C., Midlands Tech., and Airport High School. These programs benefit aspiring teachers as well as our students. Our third graders corresponded with their U.S.C. Math Buddies throughout the year to reinforce state math standards. Through our Title I Program, students at Wood Elementary participated in Supplemental Educational Services which included after-school tutoring through various agencies.

Lexington County Fire Services recognized our staff's commitment to safety and our joint efforts with our neighboring school by presenting Wood Elementary with the 2009-2010 Lexington County Safest School Award. Through the efforts of our School Improvement Council, we have established the Gold and Silver Partner Club Awards, recognizing numerous contributions of the local businesses in our community.

During the 2009-2010 school year, we focused on closing the achievement gap for a variety of groups represented in our school. Our faculty completed extensive studies of data and implemented research-proven strategies to address gaps in performance by subgroups of students, including students by gender and students of poverty. We implemented a single-gender class for boys in fourth grade, and looped one second grade class to third grade.

Professional development for the 2009-2010 school year included an emphasis on Dr. Robert Marzano's instructional strategies and a book study by Stephen Peters, with a focus to improve student performance by building relationships with our students and with one another. Additionally, several of our teachers were trained on "Habits of the Mind", powerful character traits that address 21st century skills for our global economy and increasingly interdependent world.

We enjoyed the services of our Instructional Facilitator and a Literacy Consultant who helped us meet the needs of our struggling students. In addition, we collaborated on a weekly basis to review the performance of individual students through portable data walls and planned appropriate strategies to improve student performance. We feel that this approach, along with our T.E.A.M. Time Rooms, contributed to the success of our students this year. The other significant contributing factor was the commitment of all of our faculty and staff to improving student performance. Our Wood family freely gives their time to provide learning activities, such as the various activity clubs, including chorus, drama, walking, jogging, quilting, Lego construction, art, and environmental club.

There are many ways that parents became involved in our school. Parents were invited to attend our schoolwide programs, including our Meet and Greet, Open House, Mad Science Presentations, Reading Prize Patrol, Career Day, Awards Ceremonies, Readers' Theater, Math Prize Patrol, Books and Breakfast, Science Fair, Night at the Living Museum, and Kaleidoscope of the Arts. We also offered a parenting program called "Parenting Now" that provided free materials, resources, and strategies relating to the educational needs of our children. We value parental input on our school committees, Title One Planning Committee, School Improvement Council, parent-teacher conferences, and PTO functions. While we are proud of our many accomplishments, we will strive for excellence as
